

PSAT REVIEW

SCORING-

The scoring system works in your favor!!!

1 point for correct answer

-1/4 for incorrect answer

0 points for omitted questions

QUESTION STRUCTURE- *Answers are in numerical order (Least – greatest or Greatest – least)*

Questions are arranged from easy to hard (don't spend too much time on the beginning questions. Keep moving.

GUESSING-

If you can eliminate at least one answer you can make an educated guess with the other 4 choices.

TRIAL AND ERROR – *Sometimes you can plug in your choices to solve the problem.*

Usually want to plug in C.

If the answer is too big then there is no need to try D and C.

If the answer is too small, then no need to try A and B.

CALCULATOR TIPS- *Fractions to Decimal*

Improper fraction button

Exponents and square roots

FILLING IN THE GRID- *Positive numbers and zero only*

Do not enter mixed numbers into the grid.

Repeating Decimals

Multiple Answers

You must fill in the Bubbles. (Write number on top to help.)
